
MOHAMED EHAB SAAD

Junior Full Stack Developer

Cairo, Egypt | 01040396796 | mohamedehab17711@gmail.com | <https://portfolio-eur9.onrender.com> | <https://github.com/mohamedehab1717>

PROFESSIONAL SUMMARY

Junior Full Stack Developer with hands-on experience building web applications using React.js, Node.js, Express.js, Laravel, MySQL, and MongoDB. Developed multiple academic, freelance, and personal projects including e-commerce, restaurant management, and accessibility platforms. Passionate about building scalable and user-focused web solutions.

EDUCATION

Bachelor of Computer Science

Canadian International College (CIC), Cairo

Graduated: June 2026

GPA: 3.4 / 4.00

SKILLS

Technical Skills

- React.js
- HTML5, CSS3, JavaScript (ES6+)
- Responsive Web Design
- Node.js, Express.js
- Laravel
- REST APIs
- Authentication (JWT)
- Debugging & Testing
- MongoDB, MySQL

Soft Skills

- Teamwork and collaboration
- Problem-solving
- Ability to perform under pressure
- Communication
- Flexible and adaptable
- Calm under pressure

Tools

- Git & GitHub
- Postman
- Microsoft Word, Excel, Power

Projects

Sakina Mental Wellness Platform:

Full Stack Developer | Graduation Project

- Developed a full-stack mental wellness platform using **React.js, Node.js, Express.js, and MongoDB**.
- Built responsive and user-friendly interfaces with React.js.
- Designed and implemented RESTful APIs using Express.js.
- Developed authentication and authorization using **JWT**.
- Integrated MongoDB for user, mood tracking, survey, journal, and exercise data management.
- Implemented CRUD operations for multiple system modules.
- Added secure backend practices including middleware validation, error handling, rate limiting, and API protection.
- Collaborated with team members to integrate frontend and backend components.

Technologies

• React.js • JavaScript • Node.js • Express.js • MongoDB • JWT • REST APIs • Git • GitHub

Reachable – Accessibility Directory Platform:

Full Stack Developer | University Project

- Developed a full-stack platform that helps people with disabilities find accessible places and services in Egypt.
- Built the Laravel MVC architecture, database schema, authentication system, and admin dashboard.
- Implemented category management, job filtering, and user feedback/rating features.

Technologies

• Laravel, PHP, MySQL, Blade, JavaScript, Laravel Sanctum

Freelance Experience

NMNM Restaurant Platform | Full Stack Developer:

- Developed a full-stack restaurant platform with online ordering, table reservations, and real-time order tracking.
- Built secure customer, staff, and admin portals with JWT authentication and role-based access control.
- Implemented menu management, reservation handling, and order processing using MongoDB and Express.js.
- Designed a responsive user interface with React for desktop and mobile devices.

Technologies:

React, Node.js, Express.js, MongoDB, JWT

E-Commerce Platform | Full Stack Developer:

- Developed a full-stack e-commerce platform with secure JWT authentication and MySQL database integration.
- Built RESTful APIs for user, product, and order management.
- Implemented shopping cart, checkout functionality, and an admin dashboard for product management.
- Deployed and tested the application using Render and Postman.

Technologies:

• Node.js, Express.js, MySQL, JWT, bcryptjs, HTML, CSS, JavaScript, REST APIs, Git

Task Manager Pro | Full Stack Developer:

- Developed a MERN stack task management application with secure JWT authentication.
- Built project and task management features with priorities, statuses, and deadlines.
- Implemented search, sorting, and overdue task tracking for improved productivity.
- Designed a responsive modern UI using React and Glassmorphism styling.

Technologies:

- MongoDB, Express.js, React, Node.js, JWT, Axios

COURSES

- **Web Development Fundamentals**

HTML, CSS, JavaScript – building responsive websites.

- **Laravel Framework Essentials**

CRUD applications and authentication systems.

- **Database Management with MySQL**

SQL queries, joins, and database design.

- **Version Control with Git & GitHub**

Branching, pull requests, and collaborative development.

CERTIFICATIONS

- MCIT – Data Analysis & Web Development
- JavaScript Algorithms and Data Structures — freeCodeCamp
- PHP with Laravel for Beginners — Udemy
- Database Foundations: MySQL — Coursera
- Responsive Web Design — freeCodeCamp
- GIS – NARSS
